The public kickoff of The Campaign for UC Davis will take place from 10:00 to 11:15 a.m. in Jackson Hall at the Mondavi Center for the Performing Arts. **All are invited to participate in this historic event!**

The program will celebrate the importance of philanthropy at UC Davis. Speakers will include: Chancellor Linda Katehi; UC Davis alumnus William P. New Fire Marshal for Davis Campus

Capt. Patricia Johnson of the UC Davis Fire Department has been appointed interim fire marshal. She will supervise all aspects of the fire prevention program at the Davis campus. Johnson has 20 years experience in fire prevention with nine years of service at UC Davis. She has most recently served as a fire captain and assistant fire marshal. Her experience encompasses all facets of fire prevention, including 11 years with the Sacramento Metropolitan Fire District prior to joining UC Davis.

The interim appointment is part of a reorganization of the fire prevention function which separates fire prevention from fire operations. Fire prevention, which is now part of Safety Services, includes a broad range of activities, such as building inspections, pre-construction plan reviews, building occupancy certification, fire alarms and fire extinguisher maintenance. Fire operations, which remains in the Fire Department, includes tactical fire response, fire suppression and hazardous materials response.

The Davis and Sacramento campuses now each have their own fire prevention units. Assistant Fire Chief Wes Arvin now heads the Sacramento campus unit, which is part of the Medical Center's Facilities Administration department.

How will you make an impact in the community this year?

Small groups of speakers present panels to classes, residence halls, student organizations, campus departments, and at other local schools/colleges/community organizations. Being on the Speakers Bureau is an empowering experience for panelists and is a great way to contribute to the strength and pride of our community.

Campus-grown tomato sauce hits UC Davis plates

Beginning this fall, UC Davis staff and students can top their pasta with sauce made from campus-grown tomatoes when they sit down to a dining hall meal. For the last four years, campus dining halls have served sauce made on campus with an array of increasingly local and organic ingredients, as part of a commitment to sustainability. This year's sauce is the first to use a campus-grown ingredient and comes at no additional cost to either campus unit, as the tomatoes were grown for research and purchased at market value. "We moved the tomatoes from the vine to my kitchen within an hour to two hours of being picked that's kind of unheard of in the food industry," said Bob Walden, one of the campus chefs. UC Davis Russell Ranch grows 500 tons of tomatoes each year as part of a 100-year experiment in sustainable agriculture to measure the effects of different farming systems, crop rotations, water, and nitrogen inputs.
