Health Policy Updates

April 12, 2022

ERIC KVIGNE

Associate Vice Chancellor, Safety Services

UCDAVIS

Masking Policy - April 2022

Masking Policy

- Dr. Sisson YouTube - [Link](#)
 - CDPH Guidelines - [Link](#)
 - CR Instructor's Guidance - [Link](#)
 - CR Signage – [Link](#)
 - CR FAQs – [Link](#)
-
- Can I require someone to wear a mask when meeting with me? – NO
 - Can my department require universal indoor masking? - NO

Welcome!
Come on in.

I'm comfortable with
visitors entering my space
while I'm unmasked.

UCDAVIS

Testing Policy and Events - April 2022

Testing Policy

- Current on Vaccines – Every 14 days
- Everyone else – Every 4 days

Events

- CR page – [Link](#)
- Non-Affiliate responsibilities
- CDPH ‘Playbook’ - [Link](#)
- CDPH Mega Events Guidelines – [Link](#)

In-Person Activity Guidance at UC Davis

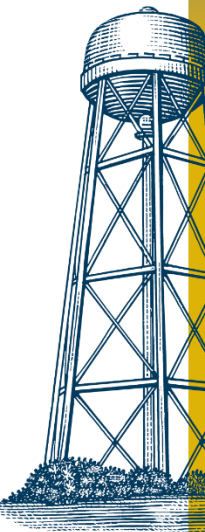

The following guidelines apply to events hosted by UC Davis departments/units, including:

- **Trainings:** when non-affiliates are registered/enrolled in continuing education, lifelong learning, seminars, workshops, and other non degree-granting educational programs
- **Camps:** summer youth camps, sports camps

Hosts should screen for Daily Symptom Survey results and vaccine/testing requirements as described below. For additional detail on the campus public health guidance, visit the [Public Health Policies & Requirements page](#).

Recent Updates (Mar. 23)

- 100-person event rules eliminated
- Event safety plans no longer required
- Vaccine Verification / Negative Testing - strongly recommended for mega events

Close Contacts and Quarantine - April 2022

**Table 2: Close Contacts - General Public
(No Quarantine)**

Asymptomatic Persons Who are Exposed to Someone with COVID-19 (No Quarantine)	Recommended Actions
<p>Everyone, regardless of vaccination status.</p> <p>Persons infected within the prior 90 days do not need to be tested, quarantined, or excluded from work unless symptoms develop.</p>	<ul style="list-style-type: none">• Test within 3-5 days after last exposure.• Per CDPH masking guidance, close contacts should wear a well-fitting mask around others for a total of 10 days, especially in indoor settings and when near those at higher risk for severe COVID-19 disease (see masking section below for additional information).• Strongly encouraged to get vaccinated or boosted.• If symptoms develop, test and stay home (see earlier section on symptomatic persons), AND• If test result is positive, follow isolation recommendations above (Table 1).

In some workplaces, employers are subject to the Cal/OSHA Aerosol Transmissible Diseases (ATD) Standard and should consult those regulations for additional applicable requirements
